

## TAKE ADVANTAGE OF THE UNITY™ HYBRID STORAGE PROMO WITH UP TO 45% OFF A HYBRID UNITY4400 OR UNITY6900

**Nexsan Unity™** Unified Storage combines enterprise-class performance and flexibility and supports advanced block and file workloads to meet the growing needs for mixed application workloads and virtualized environments. Unity includes a secure archive client for seamless integration to the optional Assureon Archive.

Unity supports Fibre Channel and iSCSI connectivity in addition to NAS protocols. HDD and SSD support can be tailored for the best mixed application deployment environment or all-flash configurations for high performance needs. The latest Intel® Xeon® Processor and increased memory allow for more IOPs, lower latency, and power to expand and deliver performance up to 40% over previous similarly configured systems. Additional ports, connectivity options, and the support of SMB 3.0 provides greater configuration flexibility.

Unity delivers on the performance you need in unified storage by blending solid state memory including DRAM and SSD to optimize block and file operations into a fault tolerant architecture. To make the most of your IT investment, Nexsan realigns the trade-off between performance, capacity, and costs with FASTier™ caching that accelerates I/O and provides high performance where it's needed.

### Special Offer:

This special offer of up to 45% off will be applied to all Unity4400 or Unity6900 Hybrid Storage Systems in Q4 upon request. This includes all hybrid configurations with FASTier.

### How It Works:

- Contact your local authorized Nexsan Partner or Nexsan RSD to review your storage requirements.
- An authorized Nexsan Partner will provide you with a final quote for the storage solution meeting your needs with the promotional discount applied.
- Must order by December 31, 2019.
- Does not include all-flash configurations.
- Does not include expansion units.
- Cannot be combined with any other offers.

Contact your reseller or [sales@nexsan.com](mailto:sales@nexsan.com) to get this special promotional pricing.

## ABOUT NEXSAN

Nexsan® is a global enterprise storage leader since 1999 delivering the most reliable, cost-effective and highly efficient storage solutions. Nexsan's solution portfolio empowers enterprises to securely store, protect and manage valuable business data with a broad product line of unified storage, block storage, and secure archiving.
